(k) GovGuam DPHSS Guidance Memorandum 2020-11 Rev 14 of 19 Nov 21

1. Purpose. To establish a standard operating procedure (SOP) for Restriction of Movement (ROM) and COVID-19 case management for Department of Defense (DoD) personnel permanently or temporarily assigned to U.S. Naval Base Guam (NBG) and tenant commands.

2. Applicability. In accordance with references (a) through (k), this SOP applies to all DoD active-duty member and reservists on orders who are permanently or temporarily assigned to NBG or a unit homeported or located onboard NBG. The procedures outlined in this SOP are also recommended for civilians, dependents, and DoD contractors or subcontractors to mitigate the spread of the COVID-19 pandemic. Regardless of status, all personnel shall comply with this SOP when onboard NBG. Failure to comply may result in punitive or administrative action.

3. Cancellation. The issuance of this SOP cancels NBG ltr 6200 Ser N00J/0264 of 5 August 2021—NBG ROM SOP Revision 13. This SOP shall remain in effect until superseded or discontinued.

4. Responsibility. Consistent with reference (b), NBG maintains primary responsibility for management of the declared public health emergency onboard the installation. Parent commands

Subj: U.S. NAVAL BASE GUAM PUBLIC HEALTH RESTRICTION OF MOVEMENT
STANDARD OPERATING PROCEDURE – REVISION 14

are responsible for supporting their personnel subject to ROM. This includes arranging for lodging, issuing ROM letters, ROM sustainment, and compliance monitoring.

5. Definitions. The following definitions are applicable to this SOP:

a. Quarantine. ROM appropriate for personnel with no COVID-19 symptoms who have either recently returned to Guam from travel or have had close contact with a known COVID-19 positive patient and who are asymptomatic.

b. Isolation. ROM appropriate for personnel due to the development of potential COVID-19 symptoms or as a result of a positive COVID-19 test.

c. Close Contact. Being within six (6) feet of an infected individual for a cumulative total of fifteen (15) minutes or more over a twenty-four (24) hour period, starting from two (2) days before illness onset (or, for asymptomatic patients, two days prior to test specimen collection) until the time the patient is isolated.

d. Vaccinated. An individual who is at least fourteen days post receipt of the second dose of a COVID-19 two-dose vaccine series. If completing a single-dose COVID-19 vaccine, an individual is considered fully vaccinated fourteen days following that single dose.

e. Vaccine Booster. A time-based reinforcement of the initial vaccine in order to prevent decreasing immunity. Reference (i) recommends vaccine boosters for service members, DoD civilian employees, eligible DoD beneficiaries, and select contractor personnel.

f. Recovered Positives. Persons who are fully recovered from a laboratory confirmed diagnosis of COVID-19 infection within the previous ninety (90) days.

6. ROM Policy.

a. COVID Positive and Close Contact ROM Duration. In accordance with references (b), (d), (e), and (f), these ROM durations are as follows:

(1) COVID Positive Isolation ROM. Regardless of vaccination status, individuals who are positive for COVID-19 infection will isolate for no less than five (5) days. Day 0 is the day of specimen collection or symptom onset, whichever occurred first.

(a) Both vaccinated and boosted individuals may discontinue isolation after 5 days, if they are asymptomatic or at least 24 hours have passed with no fever and without using fever-reducing medication and other remaining symptoms are resolving. Vaccinated or boosted personnel discontinuing isolation after five days shall wear a mask around others for an additional five days. Exit testing is not required.

(b) Unvaccinated individuals may discontinue isolation after at least 10 days since specimen collection if asymptomatic or since symptoms appeared and at least 24 hours have passed with no fever and without using fever-reducing medication. No exit testing is required.

Subj: U.S. NAVAL BASE GUAM PUBLIC HEALTH RESTRICTION OF MOVEMENT
STANDARD OPERATING PROCEDURE – REVISION 14

(2) Vaccinated Close Contact Quarantine ROM. Individuals identified as close contacts of a COVID-positive case shall quarantine for 5 days. Quarantine is not required for asymptomatic close contacts who are vaccinated and:

- (a) Have received a FDA-licensed or authorized COVID-19 booster dose;
- (b) Completed their primary series of a mRNA vaccine (including Pfizer-Biontech/Comirnaty and Moderna) within 6 months; or
- (c) Completed a primary vaccination with a Johnson and Johnson vaccine within 2 months.

(3) Recovered Positive Close Contact Quarantine ROM. Quarantine is not required for asymptomatic close contacts who are recovered positives.

(4) Unvaccinated Close Contact Quarantine ROM. Unvaccinated close contacts must quarantine for ten (10) days. The 10 day quarantine period may be reduced to seven (7) days if the individual tests negative for COVID-19 5-7 days after last date of exposure.

(5) Regardless of vaccination status, close contacts must wear a mask around others for 10 days even if mask wear is not otherwise required.

b. ROM Orders. Per reference (b), Commanding Officers and Officers-in-Charge of units onboard NBG are delegated the authority to issue ROM orders. Parent commands shall issue ROM orders to all personnel subject to ROM under their cognizance. These orders provide formal notice to personnel of their restricted status. These orders should also outline the ROM process and responsibilities of the person subject to ROM and their parent command. Parent commands should obtain written acknowledgment of receipt of the letter within twenty-four hours of issuance.

c. Post-Travel ROM. Personnel arriving on Guam are subject to quarantine in accordance with references (h), (j), and (k).

d. ROM Compliance. Parent commands are responsible for ensuring their personnel's compliance with ROM procedures—regardless of ROM location. Parent commands shall implement necessary controls to monitor compliance and investigate and take appropriate action in response to all reported instances of ROM policy violation.

e. NBG Facilities Off-Limits to ROM Personnel. Personnel in ROM are restricted from accessing the following facilities: all Navy Exchange (NEX) facilities onboard NBG; the NBG Orote Commissary; all NBG Morale, Welfare, and Recreation (MWR) facilities; NBG Housing Office; NBG Personal Property Office; Department of Defense Education Activity (DoDEA) and Personnel Support Detachment Guam.

7. ROM Sustainment and Reporting.

a. ROM Sustainment. Parent commands are responsible for all sustainment activities for their personnel in ROM regardless of their ROM location. This includes transportation, medical and non-medical care, meals, hygiene, and quality of life (QOL) items.

b. ROM Daily Reporting Requirements. Parent commands shall submit daily reports on the status of their personnel in ROM to NBG Public Health Support (PHS). These reports shall be submitted no later than 1000 daily to M-GU-NBG-EOC-BTLWTCH@fe.navy.mil.

c. COVID-19 CCIRs. Parent commands shall submit a Commander's Critical Information Report (CCIR) to NBG PHS at 671-333-2784 or via email at M-GU-NBG-EOC-BTLWTCH@fe.navy.mil within two hours of the following events:

- (1) Confirmed COVID-19 positive;
- (2) Person deemed a Person Under Investigation (PUI) for COVID-19;
- (3) ROM violation;
- (4) Injury or death related to COVID-19; or
- (5) Transfer of ROM personnel to any higher care facility.

8. ROM Release. ROM orders do not automatically expire at the conclusion of an individual's isolation or quarantine period. Parent commands are responsible for verifying that all ROM release requirements have been met in accordance with current return to work guidance. All personnel subject to ROM shall follow—and commands shall enforce—ROM requirements until issuance of a ROM Release Letter.

9. Point of Contact. Questions concerning this SOP shall be directed to NBG PHS at 671-333-2784 or via email at M-GU-NBG-EOC-BTLWTCH@fe.navy.mil.
